RE: TBD-2023-06-0274.R2, "Multi-party Federated Recommendation Based on Semi-supervised Learning"
Manuscript Type:

15-Nov-2023

Dear Mr. Lv,

Congratulations! I am pleased to inform you that your paper has been accepted with no further changes as a regular paper in an upcoming issue of Transactions on Big Data.

Please submit all final files through the Awaiting Final Files queue in your Author Center on ScholarOne Manuscripts. Please upload all files in a single session, and make sure your final package is correct and complete upon submission. Once you have completed the submission of your final files you will not be able to make any changes until you have received the page proofs from IEEE. A detailed list of the required files is below.

Please be advised that this journal follows a preprint model. This means that the current accepted version we have on file will be downloaded from ScholarOne Manuscripts and will post to IEEE Xplore 5-7 days from when we receive your final materials. Preprint versions are fully citable, and no changes can be made to the accepted version at this time. Any typographical errors can be addressed with the production editor during the proof stage, and your copy-edited version will replace the preprint version online when the paper is published in an issue. In addition, the source files requested below must match the accepted PDF we have on file. Any subsequent PDF files will not be used for production.

If for any reason you would prefer not to have your paper posted as a preprint, please email rawat.a@ieee.org prior to submitting your final materials through ScholarOne Manuscripts; otherwise, not responding indicates your acceptance of our policy.

By submitting your final files through ScholarOne Manuscripts, you are acknowledging and agreeing to any applicable page charges this paper may incur. Overlength page charges are mandatory and are not negotiable. If you have any questions about these charges, please contact rawat.a@ieee.org prior to submitting your files.

****You may not make any unauthorized changes to your manuscript at this time. IEEE will perform a comparison of your accepted paper to your final submission, and any changes outside of what the editor has requested will need to be justified and approved before publication, causing delays. This includes any changes to the author list, content, or references.****

The final items required for publication are:

1) A Latex or Microsoft Word application file. This should include keywords/index terms, and bios and photos if you are including them. The contents of this file should match the accepted PDF. Failure to submit a source file may result in publishing delays.

2) If your figures are not embedded in the source file of your manuscript, you will also need to upload separate figure files. The acceptable formats are Word, eps, ps, tiff, ppt, png and excel. We do NOT accept jpeg files for figures.

NOTE: If you intend to use an image that you didn't create (that is, it originally appeared elsewhere or someone else created it), you will need to provide permission that you're authorized to use that image to the production editor assigned to work with you on your article.

3) Biosketches and photos of all authors. Biosketches should be uploaded at the same time as the other final files, if you plan to include them. These can be included at the end of your Microsoft Word or Latex source file, or submitted as a separate upload. For author photos jpeg files are accepted. NOTE: If one of your authors does not want a photo published, please upload a document explaining this to avoid publication delays with your article.

Please make sure that all files have unique file names in order for them to export successfully to IEEE

Additional information (including our strict size limitation for all accepted articles) can be found by visiting:
<http://www.computer.org/portal/web/peerreviewjournals/author#final>.

Please see the following for information on supplemental material:
<http://www2.computer.org/portal/web/peerreviewjournals/author#supplemental>.

We encourage you to post about your published article on social media. [Read our tips for crafting an effective social media message about your work.](#)

Thank you for your contribution to Transactions on Big Data. We look forward to seeing your final files soon.

Best wishes,
Mr. Ashutosh Rawat, on behalf of
Jie Tang, EIC
Transactions on Big Data

Editor's Comments:

Associate Editor
Comments to the Author:
I checked the authors' response in person, and I am satisfied by the results and revisions.

Reviewers' Comments:

Please note that some reviewers may have included additional comments in a separate file. If a review contains the note "see the attached file" under Section III A – Public Comments, you will need to log on to ScholarOne Manuscripts to view the file. After logging in, select the Author Center, click on the "Manuscripts with Decisions" queue and then clicking on the "view decision letter" link for this manuscript. You must scroll down to the very bottom of the letter to see the file(s), if any. This will open the file that the reviewer(s) or the Associate Editor included for you along with their review.
